Education & Learning

— Bachelor's degree —

Graphic Communication Design
Universidad Autónoma Metropolitana (UAM)
2013 - 2017

— Course certificates —

Microsoft Global Hackaton (Windows Gaming)
Microsoft • 2022

Accessibility in Action
Microsoft Accessibility • 2022

Prototyping for Digital Experiences
IDEO U • 2021

Designing Strategy
IDEO U • 2020

Product Design
Udacity + Google • 2019

Human-Computer Interaction - HCI
The Interaction Design Foundation • 2018

Introduction to Human-Centered Design
Acumen Academy + IDEO.org • 2018

— Other activities —

NASA International Space Apps Challenge (First place on local event)
Spaceappschallenge.org • 2021

Main Skills & Tools

Generative AI | Design Systems | Figma | Protopie | Storytelling | Prototyping | Wireframing | User Flows | A11y | Journey Maps | Mockups | Design Strategy | GUI, NUI & CUI | Human-Centered Design Methods

Work Experience

Senior Product Designer
Product Designer
Microsoft • *Sept 2021 - Sept 2024*

- Participated on **Generative AI** product incubation processes for **Windows 11, Cortana** (on **Outlook** and **Teams)** and the implementation of new **Copilot** features for different **Microsoft 365** products. Built wireframes, journey maps, user flows, presentations and prototypes to explore different interaction models for those AI capabilities.
- Facilitated the experimentation process to increase different retention metrics on productivity features for **Microsoft Edge** and **Microsoft Feed**. Built user flows & prototypes with A11y standards to test, refine and enhance our ideas along with PMs, Design Research, Design Managers and Devs.
- Helped different teams to maintain consistency and quality standards among their projects by improving the **Fluent UI design system library** for productivity features on mobile and desktop.

Senior Product Designer
BBVA • *Feb 2021 - Sept 2021*

- Designed their first self-serve credit platform for corporate banking from scratch. Involving a process that required Design Research, Information Architecture, wireframing, flowcharts, interviews, user personas and strategy roadmaps.

UX / Interaction Designer
Yalo • *Feb 2019 - Feb 2021*

- Worked with the Design Ops team to define proper processes among our teams and defined different methodologies to measure our product success based on user's behavior metrics, in order to improve them.
- Collaborated in building a strategy to measure our product's health and took action on a plan that reduced in 15% the overall negative feedback from the satisfaction metric for main Yalo's chatbots.
- Created GUI design systems for modular web apps, built conversational experiences for e-commerce and informational chatbots on top of Whatsapp and Facebook Messenger interaction systems, for companies such as: **Burguer King, Amazon, Domino's Pizza, Nescafé and the Mexican federal government,** among others.

Interaction Designer / UX Consultant
M&GT Consulting & Intélite • *Jun 2017 - Nov 2019*

UX / Interaction Designer team leader
Virtualware • *Jan 2016 - Jun 2017*

Achievements / Leadership Experience

- 75% decrease in order processing time and 16% increase in orders placed through a chatbot on Whatsapp for a popular fried chicken fast food chain, called Pollo Campero, with restaurants on 12 different countries. This was a featured success case story on **Facebook Business website.**
- Automation of 45% of customer service conversations through WhatsApp for a hospital company in South America called Blue Medical. More than 70,000 questions resolved and 9,000 appointments scheduled through the chatbot during this pandemic event. This was submited by Yalo as a success case story for **Facebook Business website**.
- I was selected to lead a team of 8 designers after I offered a detailed work plan to introduce Human-Centered-Design for an international software company called Virtualware. We developed 3 projects in a span of 1.5 years, involving web, mobile, AR, VR and Big Data technologies. Held “Design Talks” and educative material to promote Human-Centered practices, involving topics like: Design Thinking, Business Innovation, Methodologies, Complex-Thinking models, Prospective practices, etc.
